## EDUCATION

---

**Menoufia National University,**

2022 – 2026 | Menoufia, Egypt

*Bachelor of Computer & Artificial Intelligence*

GPA: 3.07/4.0

## PROFESSIONAL EXPERIENCE

---

**Microsoft, Ministry of Communications and Information Technology, & Care Egypt,**

08/2025 – 09/2025 | Egypt, Egypt

*Data Analyst (Trainee)*

- Completed a certified Data Analysis training course designed to build a new generation of data professionals. The program provided comprehensive, hands-on experience across the entire data lifecycle, including data collection, cleaning, processing, and interpretation. Developed practical skills in using advanced tools to transform raw data into actionable insights, build interactive dashboards, and generate professional reports to support data-driven decision-making.

**CREATIVA (Digital Egypt Innovation Centers) & AMIT,**

04/2025 – 05/2025 | Menoufia, Egypt

*AI & Computer Vision Specialist (Trainee)*

- Completed a 35-hour specialized training program focused on the fundamentals and practical applications of Artificial Intelligence and Computer Vision. Gained hands-on experience in understanding and implementing AI models for tasks such as image recognition, object detection, and visual pattern analysis.

**CREATIVA (Digital Egypt Innovation Centers) & AMIT,**

03/2025 – 03/2025 | Menoufia, Egypt

*Freelance Data Analyst (Trainee)*

- Participated in a targeted 21-hour workshop focused on the business and operational aspects of a freelance data analysis career. The curriculum included developing a professional portfolio, mastering client communication, creating effective project proposals, and strategies for pricing and marketing freelance services.

**CREATIVA (Digital Egypt Innovation Centers) & AMIT,**

02/2025 – 02/2025 | Menoufia, Egypt

*Data Analyst (Trainee)*

- Successfully completed a 35-hour comprehensive program focused on practical, hands-on data analysis. The training covered advanced techniques for data processing, statistical interpretation, and data visualization to extract meaningful insights and solve real-world problems.

*Web Designer (Trainee)*

- Successfully graduated from the intensive Digital Egypt Youth program with a distinguished score of 98%. The curriculum consisted of 90 technical hours dedicated to mastering modern web design principles and front-end development technologies. Gained hands-on experience in creating responsive, user-friendly websites. The program also included a 30-hour specialized module on freelancing, which covered client acquisition strategies, project management methodologies, and effective self-marketing in the global digital marketplace.

**SKILLS**

---

Python, tensorflow, Scikit-learn, PyTorch, pandas, numpy, SQL, MySQL, OracleDB, SQL Server, PostgreSQL, Mathematics&Algorithms, Linear Algebra, Calculus&Probability, Statistical analysis,, Optimization Techniques, Computer Vision, OpenCV, CNN, GANS, Analytical thinking and problem-solving, NoSQL, mongodb, Cassandra, Data Visualization, Matplotlib, seaborn, Tableau, PowerBI, NLP

**PROFILE**

---

A motivated and detail-oriented student at **Menofia National University** with a strong, practical foundation in **Data Analysis**, **Web Design**, and **AI-driven Computer Vision**. Possesses hands-on experience gained from intensive training programs certified by industry leaders like **Microsoft** and Egypt's **National Telecommunication Institute (NTI)**. Eager to apply a versatile skill set to contribute to innovative projects, solve complex problems, and drive impactful results in a challenging technical environment.
